

Human First Hosts “Transition to Employment” Networking Breakfast

FOR IMMEDIATE RELEASE

September 30, 2015 - Human First, Inc. will host **Transition to Employment**, a networking breakfast highlighting their Customized Employment Program.

Customized Employment addresses the disproportionately high unemployment rate among the developmentally disabled by examining participants’ competencies and matching them with a company whose employment needs align with their abilities. It provides participants with a clear and strategic plan as well as a support system to pave the way for successful employment. Transition to Employment will introduce local businesses and civic leaders to Customized Employment and provide a forum to exchange ideas for broader community engagement.

Transition to Employment will take place on Thursday, October 8th from 10am – noon at Human First’s Astoria Program Office, 25-15 Steinway Street, Astoria, New York

To attend Transition to Employment, please RSVP by October 1st to Elizabeth Stehle at (516) 823-9500 or estehle@humanfirst.org. For general questions about Customized Employment or to get involved, contact Lenny Moise at (516) 506-3187 or lmoise@humanfirst.org.

Human First, Inc. is dedicated to providing innovative, customized, and quality services to the developmentally disabled, and a robust support infrastructure for their families. Established in 2001, Human First has grown into a leading provider for multicultural and traditionally underserved communities throughout New York City and Long Island.
